 Mumbai, Maharashtra

EDUCATION

Bachelor of Engineering (Computer)

Mumbai University - May 2016 | 7.59 CGPI

Higher Secondary Certificate (HSC)

Maharashtra Board - Feb 2012 | 68.83%

Secondary School Certificate (SSC)

Maharashtra Board - Mar 2010 | 80.91%

SKILLS

- Strong problem-solving skills.
- Ability to work independently and as part of a team.
- Detail-oriented and able to handle multiple tasks simultaneously.
- Capable of handling multiple web application modules while maintaining clean, organized, and maintainable code.

TECHNOLOGY STACK

LANGUAGES

Marathi

Hindi

English

CERTIFICATIONS

- **SCTS-JAVA** : SEED Certified Technology Specialist (JAVA)
- **MS-CIT** : Maharashtra State-Certificate in Information Technology

PROFILE

PHP Developer with 4+ years of experience in designing and developing web-based applications using Laravel, CakePHP, PHP, MySQL, HTML, CSS, and JavaScript. Experienced in building database-driven internal systems, including recruitment, manpower requisition, device registration, bus pass, and performance appraisal portals. Skilled in developing writing maintainable application logic for organizational use. Currently expanding skills in Python and AI-focused practical tools.

PROFESSIONAL EXPERIENCE

Research Scientist (IT)

Society for Applied Microwave Electronics Engineering & Research (SAMEER) | Aug 2023 – Present | I.I.T.B. Campus, Powai

- Developed dynamic web applications, including a QR Code-Based Bus Pass System.
- Designed, implemented, and maintained new features for both internal and client-facing web applications, ensuring scalability and performance.
- Built secure, maintainable back-end solutions for organization, focusing on reliable data handling, streamlined workflows, and efficient user experiences.

Research Scientist (IT)

Society for Applied Microwave Electronics Engineering & Research (SAMEER) | Jul 2021 – Jul 2023 | I.I.T.B. Campus, Powai

- Designed and developed dynamic web-based applications using Laravel and MySQL for internal organizational workflows.
- Developed a Device Registration Portal enabling users to register device MAC addresses for internet access through the organization's proxy tunnel.
- Designed and developed a Manpower Request Portal to maintain online records of project-wise manpower requirements and allotments for departmental heads.

Graduate Apprenticeship Trainee

Society for Applied Microwave Electronics Engineering & Research (SAMEER) | Dec 2018 – Dec 2019 | I.I.T.B. Campus, Powai

- Designed and developed web-based applications using PHP.
- Learned and implemented the CakePHP framework with PHP 7 for rapid web application development.
- Used MySQL with CakePHP applications for project-related data storage, retrieval, and manipulation.
- Reviewed application functionality and enhanced features based on project objectives, management input, and end-user feedback.
